

Product **Contacts: 4, female cable connector, blue**

Area **Snap-in IP67 Serier 620**
Article number **99 9210 060 04**

Technical data

General features

Kontaktdesign	female cable connector
Kontaktionslåsning	snap
Anslutning	solder
Tvärsnitt (mm)	0.25 mm ²
Tvärsnitt (AWG)	24
Kabeluttag	3,0 - 5,0 mm
Övre gränstemperatur	85 °C
Lägre gränstemperatur	-25 °C

Electrical parameters

Märkström (40°C)	2,5 A
Märkspänning	125 V
Märkstötspänning	1500 V
Föreoreningsgrad	2
Överspänningskategori	II
Isoleringsmaterialgrupp	II
Resistans	≤ 3 mΩ
Insulation resistance	≥ 10 ¹⁰ Ω
EMV-behörighet	Shielding is not possible
Kapslingsklass	IP67
Mekanisk livslängd	> 500 Mating cycles

Material

Kontaktmaterial	CuSn (bronze)
Kontaktplätning	Au (gold)
Kontaktkroppsmaterial	PA (UL 94 V-0)
Kontaktusmaterial	PA

Area **Snap-in IP67 Serier 620**
Article number **99 9210 060 04**

Sprängskiss

Product **Contacts: 4, female cable connector, blue**

Area **Snap-in IP67 Serier 620**
Article number **99 9210 060 04**

Security notices

The connector must not be connected or separated under load. Non-observance and incorrect use can result in personal injury.

The connectors are designed for use in plant, control system and electrical equipment. The end user is responsible for checking whether the connectors are suitable for use in other applications.

To prevent the connector being opened unintentionally when used in electrical circuits containing hazardous life parts, the thread between the housing and the connector head must be secured using a suitable cyanoacrylate adhesive. This does not apply to connectors used in SELV and PELV circuits according to IEC 61140 (EN 61140, VDE 0140-1).

Connectors used in electrical circuits containing hazardous life parts must only be assembled and used by or under the supervision of persons with the requisite electrotechnical training, taking the applicable regulations and standards into account.

Connectors with degree of protection IP 67 and IP 68 are not suitable for use under water. When used outdoors, the connectors must be separately protected against corrosion. For further information about IP degrees of protection refer to 'Technical support' in the Download Centre.
